REMAKE REVOLUTION

A Green Carpet Affair from the Gasworks Market

Calling all designers, design students, and anyone interested in creating new designs by recycling pre-loved clothes and fabrics - kid designers are welcome too!

The Gasworks Market will be hosting a fashion event, Remake Revolution, at their night market, **5 - 9pm Saturday 5 October 2024** at the **Dunedin Gasworks Museum**.

We'd like to invite everyone who's interested in recycling, upcycling and reusing old fabrics and clothes into completely new designs, to enter our Remake Revolution fashion show and competition. This fashion show is all about reusing and re-forming something old into something new. **All clothing, material and fabrics used must be secondhand or pre-loved.**

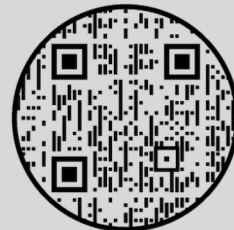

On the night, each outfit will be displayed on models who will wander around the market throughout the evening, so that everyone has a chance to see each design and to decide on which work of art they'd like to vote for!

For each outfit entered, designers will also create a show board, including a photo and title of the outfit, describing the materials, how it was made, and the design inspiration or motivation. Each show board and outfit will be given a number, so that people at the market can vote for their favourite designs for Most Creative and for People's Choice.

There will be 4 design categories you can enter into - you can enter as many categories and outfits as you like!

The design categories will be:

- Street Wear
- Kids' Wear
- Evening Wear
- Wearable Art e.g. cosplay, drag, steampunk

Entry fees are \$5 for under 18 year olds, \$10 for tertiary students, \$15 for open and \$20 for professionals. You pay just one fee per designer, regardless of the number of outfits or categories entered. To enter, please complete the application form by scanning the QR code above or email gasworksmarket@gmail.com. Entry fees are due once you receive confirmation that your application has been accepted. More information will be sent to all accepted applicants.

PLEASE NOTE: designers need to supply their own models - or model their own outfit! All models need to sign a model release form, which will be supplied to designers once applications have been processed. The deadline for all fees to be paid and for all model releases to be returned to the market organisers is **5 September 2024**.
