Using Polly

Polly is an AI reader - that reads out the questions to students. It is a very useful tool that students should be taking advantage of.

Students will need to bring in headphones WITH chords (cannot be bluetooth).

This would be beneficial to ALL students

It would be very useful to trial using this BEFORE the exams next week

Using Polly

NCEA Standard 32406 Numeracy, Term 2 2022

Grade	4	5	6	7	8
Weight	35 g +	44 g +	53 g +	62 g +	68 g +

(a) What grade is an egg that weighs 60 grams?

Grade 6 Grade 7 Grade 8

Picture of one dozen (12) eggs

Click “Play” button
and it will read the
question

Using Polly

Can read part sentences, or just words. Whatever you highlight

NCEA Standard 32406 Numeracy. Term 2 2022

HIGHLIGHT AND NOTES

Calculate the minimum weight of one dozen (12) eggs that are grams

Picture of one dozen (12) eggs

anders eat about 250 eggs each per year.
Zealand is just over 5 million people.

Here is a headline from a newspaper.

IT'S NO YOLK!
New Zealanders eat over 1 billion eggs per year.

Is the headline realistic? Explain your answer using the information provided in part (c).

B I U    Listen   

Spell Check

Sources (images)

Using Polly

A lot of students understand what the question is asking when it is read to them. BUT teachers can't read the questions in the exam. Super useful!

Bring headphones with chords

The screenshot shows the NCEA Numeracy interface for Term 2 2022. The top header includes the NCEA Standard 32406 and a language dropdown set to ENGLISH. A question is displayed: "Calculate the minimum weight of one dozen (12) eggs that are". Below the question is a placeholder for a picture, labeled "Picture of one dozen (12) eggs". The text continues with "per year." and "ple." followed by "from a newspaper." Below this is a text box containing "YOLK!" and "1 billion eggs per year." At the bottom, there is a "Spell Check" button and a "Sources (images)" section.
