

Lost Bird

My cockatiel Puff flew away from my backyard at Manurere St Hei Hei on March 23th. (The cage fell and she escaped.) She has **yellow head with red cheeks, **light grey body**, **dotted tail feather**, and **very obvious dark on her beak**. She's friendly to human so may come down and ask human for help when she's starving. She can fly quite far away, please let me know if you have any clue for her! Contact Simone 0275050213. \$100 on reward.**
