### Local Histories Curriculum

You may have heard all the discussion on media over the last year about the implementation of the new Histories curriculum into our school curriculum. Part of this implementation process is to consult with our local community networks to help us explore the historical significance of local places and people to see what you think is important to include in our new curriculum. This is your chance to have a say on what we should be teaching our kids about local history. To help us start our journey, below you will find a link to a survey with 4 questions. Not only am I personally interested in learning more about local history, but I also relish the opportunity to pass this knowledge on to our students. We really appreciate your time. If you have any further feedback please email Melissa Greenwood at [melissa@amuri.school.nz](mailto:melissa@amuri.school.nz) or call me on 027 517 7783.

### Registering at the Health Centre

If you reside within our community or would like Amuri Health Centre to be your main place for health care, we encourage you to enrol with us. You will receive subsidised health care, be eligible for funded services and receive seamless care by doing so.

As per Ministry of Health guidelines patients may only enrol at one Health Centre.

Although we can provide care to patients who are not enrolled with us, their visits will incur increased charges as we do not receive any funding to subsidise these.

If you are a non-New Zealander on a work visa, you may still be able to enrol. Please contact reception to check if you are eligible.

### World Hepatitis Day – Stick it to Hep C

The new campaign launched last week to raise awareness of Hepatitis C, an infection of the liver spread via blood-to-blood contact.

Many people don't know they have Hep C because the symptoms aren't always visible even though it can lead to serious liver disease.

The good news is that testing for Hep C is easy – just a finger prick – and it can be cured in just eight weeks for most people, once it's been identified. The treatment is fully subsidised, so it's also free with a prescription.

Find out if you're at risk and choose where you'd like to get tested by visiting [www.stickittohepc.co.nz](http://www.stickittohepc.co.nz)
